Narrative

The average mean hourly rate of pay difference shows that females are paid 24.9% less than males. As with most educational organisations the Uttoxeter Learning Trust employs more female full pay relevant employees than male (282 female, 63 male).

We believe that men and women are paid equally for doing equivalent jobs across the Trust. ULT is a young multi academy trust and has inherited staff and pay structures of its constituent academies at the point of transfer from Staffordshire County Council. The Trust's pay scales for teaching staff are aligned to the Teachers' Pay and Conditions document and support staff job roles are evaluated by Staffordshire County Council using local authority NJC job evaluation rules and placed within a designated pay band.

The ULT did not pay any bonuses in the reporting period. However, it is clear from the quartile information above that we employ more women in higher paid roles (Senior and Middle leaders and mostly full-time) and substantially fewer men in the lowest paid roles (teaching assistants, admin, lunchtime supervisors and cleaners etc.) many of which are part-time.

All roles are open to male and female applicants.
